PROFESSIONAL SUMMARY

Full Stack Developer with 1+ year of professional experience building enterprise web applications using React, TypeScript, and SharePoint Framework (SPFx). Skilled in the MERN stack, RESTful API development, authentication, and responsive UI design. Passionate about building scalable, high-quality applications with clean, maintainable code.

TECHNICAL SKILLS

Languages & Frontend: JavaScript (ES6+), TypeScript, C#, HTML5, CSS3, React.js, Tailwind CSS, Bootstrap, Axios

Backend & Databases: Node.js, Express.js, REST APIs, JWT Authentication, Middleware, MongoDB, Mongoose, MySQL

Tools & Platforms: Git, GitHub, Azure DevOps (TFS), SharePoint Online, Postman, SharePoint Framework (SPFx), Agile

PROFESSIONAL EXPERIENCE

Tata Consultancy Services

May 2025 – Present

Assistant System Engineer | Client: Infineon Technologies

Bengaluru, Karnataka

- Engineered an in-house workflow generator using React, TypeScript, and SPFx to replace SharePoint's deprecated workflow engine, adopted by **90+** users and significantly reducing **2–3 hours** of manual effort daily across teams.
- Scaled the approver model from **3** people to **100+ per instance** by resolving Approvers, Informees, and Viewers through **Users, AD security groups and DLs**, with automated mail routing and per-task approval deadlines.
- Built an event management module with calendar-based creation, self-service registration, **Webex** calendar sync, and change notifications, plus a scheduled job archiving events older than six months to saving in Excel Workbook.
- Resolved **6+** production issues across enterprise React applications, collaborating with QA and business teams to validate fixes and support timely releases.

PROJECTS

Placement & Job Portal System — Full Stack MERN Application

🐙 [GitHub](#)

🌐 [Live Demo](#)

Feb 2026

Tech Stack: MongoDB | Express.js | React.js | Node.js | Mongoose | Tailwind CSS | JWT

- Built and deployed a full stack job portal that centralises campus recruitment across Admin, Recruiter, and Student roles, replacing fragmented spreadsheet and email based application tracking across the hiring cycle.
- Secured the platform using **JWT authentication** over HTTP-only cookies with OTP email verification, and enforced **Role-Based Access Control** through custom Express middleware on every protected API route.
- Modelled MongoDB collections with Mongoose relationships and regex-based job search and filtering.

NewsHarvest — React News Aggregator

🐙 [GitHub](#)

Nov 2023

Tech Stack: React | JavaScript | Bootstrap | REST APIs

- Developed a responsive React news aggregation platform integrating third-party **REST APIs** for real-time articles.
- Implemented keyword search, category filtering, OAuth authentication, and dark mode with reusable components.
- Optimised UX with responsive design, loading states, and error handling for fast, intuitive news browsing.

EDUCATION

Shri Shankaracharya College of Engg & Tech, Bhilai

June 2020 – May 2024

Bachelor of Technology (Information Technology) – **77.4%**

Bhilai, Chhattisgarh

CERTIFICATIONS & TRAININGS

• AZ-900: Microsoft Azure Fundamentals [Credential](#)

Feb 2026

• GitHub Copilot (Microsoft) [Credential](#)

Jan 2026

• Summer Trainee – CSPDCL, Raipur

Jun 2023 – Jul 2023

- Built a full stack Online Examination System for the JE exam with candidate registration and timed tests.
