PROFESSIONAL SUMMARY

Software Engineer with 1+ year of experience developing enterprise web applications, SharePoint solutions, and RESTful services. Skilled in ReactJS, ASP.NET Web API, Java, and Microsoft Azure with experience building secure, scalable applications and backend integrations. Passionate about writing clean, maintainable code and delivering high-quality software solutions.

PROFESSIONAL EXPERIENCE

Tata Consultancy Services

May 2025 – Present

.NET Full Stack Developer | Client: Infineon Technologies

Bengaluru, K.A

- Developed custom SharePoint Workflow Generator and Event Management Web Parts using SPFx to automate enterprise workflows and business processes.
- Engineered an enterprise-grade workflow automation solution with dynamic approvals, lifecycle management, and automated email notifications.
- Developed an event management platform with calendar integration, registrations, and automated notifications.
- Built an automated archival solution to generate Excel reports and efficiently manage historical event records.

Chhattisgarh State Power Distribution Company Limited (CSPDCL)

June 2023 – July 2023

Summer Trainee

Raipur, C.G

- Crafted an Online Examination System for the CSPDCL Junior Engineer (JE) exam, enabling candidates to register, apply, and take exams through a secure web platform.
- Implemented features such as question management for invigilators, timed examinations, and instant result generation to streamline the examination process.

Languages: JavaScript, C#, Java

Frontend: React, HTML5, CSS3, Bootstrap, Tailwind CSS, SharePoint Framework (SPFx)

Backend: Node.js, Express.js, ASP.NET Web API, REST APIs, JWT Authentication & Authorization, SharePoint

Database: SQL (MySQL), MongoDB

Cloud: Microsoft Azure (AZ-900)

Tools: Git, GitHub, Postman, Visual Studio 2022, VS Code, MS Excel

EDUCATION

Shri Shankaracharya College of Engg & Tech, Bhilai

June 2020 – May 2024

Bachelor of Technology (Information Technology) – **77.4%**

Bhilai, C.G.

Chavara Higher Secondary School, Kondagaon

April 2019 – May 2020

Class XII – CBSE – **71.6%**

Kondagaon, C.G.

PROJECTS

NewsHarvest — React News Aggregator

🐙 [GitHub](#)

Nov 2023

Tech Stack: React | JavaScript | Bootstrap | REST APIs

- Integrated a news API to fetch real-time articles with category-based filtering and search functionality for quick access to relevant news content.
- Implemented secure authentication using OAuth via email login and developed a dark mode feature to enhance user experience and accessibility.

Placement Management System — Web Application

Nov 2023

Tech Stack: React | Node.js | REST APIs | jQuery | JWT Authentication & Authorization

- Developed a centralized Placement Management System to streamline campus recruitment by providing a single platform for job opportunities, reducing missed placement updates from scattered communication channels.
- Implemented secure JWT authentication and role-based authorization with protected routes, enabling student profiles, resume uploads, job applications, and admin postings.
